CARE SURGICAL

CS Easy Prone - 170mm - Chest & Pelvis Set

- + Before repositioning, make sure that the supports are already in the correct position on the operating table. Thorax support at the level of the patient's nipple line, pelvic support at the level of the iliac crest.
- + After repositioning, the larynx, axilla, abdomen and genitals should be positioned pressure-free.
- + Suitable for male patients, as well as female patients with small to normal sized breasts.
- + Not suitable for female patients with large breasts or implants.

Cleaning instructions

Clean with standard
hospital wipes

Do not immerse in water

Do not autoclave
